ABOUT US

Rock 'n' Roll should be LOUD – and so the MOTHER is...and will always be!

The band plays heavy and melodic classic rock with straightforward rhythms, big choruses and powerful hooks influenced by old-school rock & metal bands such as Iron Maiden, Metallica, Green Day and many others.

Mother of Loudness released their debut album "Dawnload" in 2020, the EP "Arrows" in 2022, the EP "From Day to Day" in 2023 and 2024 the EP „All For Rock“, all EPs produced by Dennis Ward (Pink Cream 69, Magnum, Gus G.).

After many shows all over southern Germany, the band has found their performance:

Hendrik Böttcher (vocals/guitar)
Mark Tempest (vocals/bass)
Stefan Böttcher (guitar)
Lukas Kinberger (drums)

Current activities:

- Support for THE DEAD DAISIES (feat. Glenn Hughes/Deep Purple) EU Summer Tour 2022
- many live shows during the "Arrows-Tour" in Southwest Germany (2022)
- Production of 3-track EP "FROM DAY TO DAY" (produced by Dennis Ward) (2023)
- many live shows during the „From Day to Day-Tour" in Germany and Europe (2023/24)
- Production of 5-track EP „All For Rock" (produced by Dennis Ward) (2024)
- Support for PHIL CAMPBELL (ex „Motörhead“) - Nov 24
- many live shows during the „All For Rock-Tour" in Germany and Europe (2024/25)

Since 2017, Mother of Loudness have been testing their audience's willingness to party. Straightforward Heavy Rock with driving drum grooves and an unmistakable invitation to join in the celebration draws the audience to the stage. Her latest track „All For Rock“ goes straight forward, catches your ear, an anthem for Rock'n'Roll: And that is the order of the Mother ;-)

About our music:

"The music of the rock band Mother of Loudness can be described as powerful and energetic, blending elements of hard rock, funpunk and heavy metal. Their sound is characterized by distorted guitar riffs, defined basses, driving rhythms, and aggressive vocals. The band often emphasizes loud, high-intensity performances, with a focus on dynamic guitar solos and thunderous drumming. Their music also incorporates a raw, unpolished edge that brings a sense of power and intensity, that appeal to fans of classic rock, surfpunk and modern heavy metal."
